

## Science Express Climate Special – SECAS II

Science Express, the flagship programme of the Department of Science & Technology, Government of India is an innovative mobile science exhibition mounted on a 16 coach train, travelling across India since October 2007. Since then, it has made eight tours of the country, travelling about 1,60,000 km and have exhibited at 525 locations.

The current journey of Science Express was flagged off on February 17, 2017 from Delhi and it would come to Gujarat, its last destination on August 22, 2017 and would travel across the State till September 8, 2017.

Do visit and be a part of the climate action.

Schedule of the Science Express is as follows:
