World Ocean Day

8 June 2022

*One Ocean,
One Climate,
One Future – Together*

Protect at least 30% of our
blue planet by 2030

World Ocean Day

8 June 2022

*One Ocean,
One Climate,
One Future – Together*

Protect at least 30% of our
blue planet by 2030

- In 1992, Canada Proposed the concept of "World Ocean Day" at the Earth Summit in Rio.
- In December 2008, the United Nations General Assembly officially recognized June 8 as World Ocean Day.
- Currently, less than 17% of land worldwide and less than 8% of the Ocean are protected.

2022 is a critical time for action!

- Let's protect at least 30% of our lands, waters, and oceans by 2030 to create a healthy ocean with abundant wildlife and stabilize the Climate.
